Projects

QUIZZIE

[LINK](#)

- Developed a full-stack web application using **ReactJS, Node.js, Express, and MongoDB** that allows users to create, share, and take interactive quizzes, supporting both Q&A and poll formats.
- Implemented dynamic quiz creation and editing features with support for multimedia content (text, images, or both) and integrated question-wise analysis to provide users with detailed insights on quiz performance.
- Designed and built a user dashboard offering insights and analytics on quiz engagement and overall quiz performance, enhancing user experience and data accessibility.

NOTES TAKING APP

[LINK](#)

- Created a web app to manage notes in different groups and keep them saved for future use.
- Let users make and organize notes in groups, with all data saved so it's still there when they return.
- Developed using **React.js** and **React Router**, and used **local storage** to keep notes and timestamps.

Experience

BACKEND DEVELOPER INTERN AT SAFFIRETECH

JAN 2024 – JUN 2024

- Developed plugins for WooCommerce and added extra features to existing plugins.
- “Discontinued stock status” plugin in which I contributed the most. Developed to make it compatible with simple and variable subscription product. This assisted 400+ active installations in their WooCommerce store.
- This experience significantly improved my coding skills in **JavaScript, HTML, CSS, AJAX**, and **PHP**.

Skills

- Technical skills: HTML, CSS, JavaScript, React, Node JS, Express, MongoDB, Java, and MySQL.
